 - Oct 8
 - Oct 29
 - Nov 19
 - Dec 10
 - Dec 31

4 Milton projects w TIF funding (tax for infrastructure)

- Southern Gateway (traffic light by Restore) – now
- Sidewalk Gap Project (complete the absent sidewalks) – Fall 2019
- Town Green – Spring 2020
- Streetscape improvement project (landscaping, trees, lights, etc) – 2020 or later (last project)

Known features

- Trees:
 - 94 total (50 perimeter of town green, 44 across street on short sides).
 - Variety of trees will be included per the list (flowering, variegated foliage, colorful all seasons, non-invasive).
 - We can alter spacing/location as desired.
- Lights:
 - 30 total (21 in town green, 9 across street on short sides); all single-headed lamp posts.
 - If want additional lights or dual-headed = additional cost.
- Utilities:
 - Power – can opt to have outlets on lamp posts (unsure if additional cost for this feature).
 - Water & sewer – additional costs.
- Stormwater:
 - Green won't be used to drain stormwater.
 - Grading will be flat; level with the bank.
- Basic design:
 - Archaeological assessment: already completed; don't expect any surprises to be found during project.
 - Safety: curb, perimeter trees.
 - Sidewalks: perimeter of green (believe it's outside of tree line).
 - Powerlines: staying above ground (all on west side of hwy7, not in park)
 - Size: approx 3 acres of internal green
