

**Hydrant Flushing – 04/21/14-05/02/14**

**The Town of Milton Water Division will be performing it's semi-annual hydrant flushing from April 21st through May 2nd, 2014 between the hours of 7:00 am and 3:30 pm. Water system users may at times experience brief periods of low or no water pressure and milky or discolored water. Discolored water can be cleared by allowing your cold water to run for several minutes. If problems persist or you have general questions or comments regarding hydrant flushing please contact the Milton Public Works Department at 802-893-6030.**
