PRESS RELEASE

May 24th, 2013 10:45 AM

The Milton Police Department has received information from Green Mountain Power warning of possible flooding along the Lamoille River in Milton. The information received indicates that if the current rainy weather continues, the river could crest in the next 10 to 12 hours, causing flooding along the river, particularly in the areas designated as flood zones.

Residents who live in these areas are encouraged to be aware of the possibility of flooding and to make any necessary preparations in the event that flooding does occur.

Anyone driving in low lying areas is also encouraged to be aware of the possibility of water in the road or washouts.

This release is informational only at this time. The information received from Green Mountain Power indicates that flooding is NOT imminent at this time, but is a possibility.

A handwritten signature in black ink, appearing to read "Gordon J. LaFountain", written over a horizontal line.
