EXTRACTION OF NATURAL RESOURCES FORM, ZR§860

Describe the proposed extraction of sod, soil, sand, gravel or stone action in detail:

Check each box below to verify that your site plan includes the following:

- Location and magnitude of the proposed operation
- Location and composition of access roads
- Existing grades and contours in the area from which the material is to be taken
- Finished grades at the conclusion of the operation
- Adequate fencing of excavation areas
- Landscape buffer zones,
- Measures to control dust, noise or other effects which may be harmful to the surrounding area
- Measures to protect soil fertility, drainage and lateral support of abutting land
- Provisions to cover the finished grades with at least four inches of topsoil and seed with a suitable crop cover

(ZR§860.4 requires that you post surety with the Town of Milton sufficient to guarantee conformity with the approved plans. The amount of the surety shall be determined by the Development Review Board.)

What amount of surety do you propose and how did you arrive at this calculation?

Check here to verify that you understand, accept and will comply with the following limitations:

No removal of soil, sod, loam, sand, gravel or stone shall be permitted:

- Within any Flood hazard or Forestry/Conservation/Scenic Ridgeline District (unless expressly permitted in Appendix A of the Milton Zoning Regulations: Inundation Hazard Area Regulations).
- Within seventy-five (75) feet of any property line.
- Within fifty (50) feet of the mean high water level of any stream, river or lake.
- Within any SETBACK or buffer zone required by these Regulations.
